> **Psuedocode Snippet**
>
> ```
> 1  here is pseudocode
> 2
> 3  oh look, a new line
> ```

> **Python Snippet**
>
> ```python
> 1  # here is a python program
> 2  print("Hello World")
> 3  for x in range (1, 44):
> 4      print(x, " is current")
> 5
> 6  def function
> ```

This code will result in the following output

> ```
> 1  Hello World
> 2  1 is current
> 3  2 is current
> 4  ...
> 5  The text at line 4 is not valid
> ```

This even continues onto the next page

and the next.

PRE-READING: PG 122-130

📅 20-09-2022   👁 Pre-reading

Here is some research notes from doing some pre-reading.
